Prepackaged i2b2 1.7.12 web client with ACT software

Version: 1.3. (February 2020)

Description: This release contains two prepackaged plugins (SHRINE Connector and Patient List Exporter) inside a vanilla i2b2 1.7.12 web client. Once configured, your local i2b2 user with MANAGER role will be able to view all queries from your SHRINE and export lists of i2b2 patient numbers from a query.

Download here: act-i2b2-webclient-1.7.12.zip

Follow the manual installation steps to configure and deploy the web client
