

getService - SetHive Request Message

```
<message_body>  
<pm:set_hive>  
<environment>PRODUCTION</environment>  
<helpURL>http://i2b2.org/help</helpURL>  
<Active>true</Active>  
<domain_name>i2b2dev</domain_name>  
</pm:set_hive>  
</message_body>
```

A **setHive** message is sent by a client application or another cell service to add a hive to the PM cell.
The domain, username, and password are sent in the header of the message so it does not need to be sent separately in the *<message_body>*.

| Role | Access Full | Access Project | Access Self |
|---------|-------------|----------------|-------------|
| ADMIN | X | X | X |
| MANAGER | | | |
| USER | | | |

```
<request>  
<request>  
<message_header></message_header>  
<request_header></request_header>  
<message_body></message_body>  
</request>  
</request>
```
