

# WORKQRY.xsd

WORK\_QRY.xsd

|           |                                   |
|-----------|-----------------------------------|
| <request> | Container for request information |
|           |                                   |

|                        |   |
|------------------------|---|
| <get_folder_by_userID> | Container for work data request                     |
| type                   | Indicates the amount of data to be returned (core). |

|                         |   |
|-------------------------|---|
| <get_folder_by_project> | Container for work data request                     |
| type                    | Indicates the amount of data to be returned (core). |

|                |   |
|----------------|---|
| <get_children> | Container for work data request                               |
| <parent>       | The name of the parent node at which the request is targeted. |

|                |   |
|----------------|---|
| <rename_child> | Container for work data request                         |
| <node>         | The index of the node at which the request is targeted. |
| <name>         | The new name for the node.                              |

|                |   |
|----------------|---|
| <export_child> | Container for work data request                         |
| <node>         | The index of the node at which the request is targeted. |
| <type>         | The new type for the node.                              |

|                |   |
|----------------|---|
| <delete_child> | Container for work data request                         |
| <node>         | The index of the node at which the request is targeted. |

|             |  |
|-------------|--|
| <add_child> | Container for work data request; identifies the information to insert into a row in the WORKPLACE table. |
|             |  |

|                  |   |
|------------------|---|
| <annotate_child> | Container for work data request                         |
| <node>           | The index of the node at which the request is targeted. |
| <tooltip>        | The new annotation for the node.                        |

|              |   |
|--------------|---|
| <move_child> | Container for work data request                                     |
| <node>       | The index of the node at which the request is targeted.             |
| <parent>     | The new parent index for the node at which the request is targeted. |
