

# PM\_USER\_PARAMS Table

- The *PM\_USER\_PARAMS* table contains parameters that are specific to the user.
- The **ID** is an auto generated number.
- The **USER\_ID** is associated with a humanly legible name in the format that the user prefers.
- The **PARAM\_NAME\_CD** is associated with the object in the *CODE\_LOOKUP* table.

| PM_USER_PARAMS |               |              |
|----------------|---------------|--------------|
| PK             | ID            | int          |
|                | USER_ID       | varchar(50)  |
|                | PARAM_NAME_CD | varchar(50)  |
|                | VALUE         | varchar(255) |
|                | DATATYPE_CD   | varchar(50)  |

- *A "PM\_PARAMS" table contains name-value pairs associated with a user that can occur more than once or vary from user to user. An "@" in place of a USER\_ID means that the parameters applies to all users not explicitly listed.*
