Storing Concepts

Concepts are used throughout i2b2 for a number of things but they are primarily used in queries, defining a model for the timeline or in the image view. By using the mouse, users will be able to drag concepts from the **Ontology**, **Query Tool**, or **Timeline** views. You may drag a single or multiple concepts from the view to the workspace. <u>Ontology Views</u>

Ontology views

• The ontology views include both Navigate Terms and Find Terms.

Query Tool View

| Query Tool | | | 0 🔅 📀 🗆 🗖 |
|---|---|-------------------------------------|--|
| Query Name: Group 1 X Dates Occurs > 0x Exclude | Group 2 X Dates Occurs > 0x Exclude | Group | Analysis Types Patient Set Patient Count Gender patien Vital Status p Race patient Age patient b Timeline |
| Drag terms from Navigate, Find and Workplace into this group | Drag terms from Navigate, Find and Workplace into this group | Drag terms fro Find and Workplac | |
| < | | > | |
| Get Everyone | Run Query Above | Patient(s) | returned: |

Timeline View
