Chapter 13. Identity Management (IM) Cell Install

The Identity Management (IM) Cell manages information related to the setup, maintenance and security of patients from heterogeneous sources. This data may be encrypted and is restricted by project and user.

Note
The installation of this cell is optional. If you do not wish to install it you can proceed to the next chapter on Initial Setup.

Chapter 13. Table of Contents

13.1 Prerequisites
13.2 Identity Management Installation Overview
  • 13.2.1 Source Code and Directory Structure
13.3 Stop Services
13.4 Configuration
  • 13.4.1 Configure the IM Build Properties
  • 13.4.2 Configure the IM Application Directory Properties
  • 13.4.3 Configure the IM Properties
    • 13.4.3.1 Set Schema Name
    • 13.4.3.2 Project Management Cell Properties
    • 13.4.3.3 Patient in Project Property
    • 13.4.3.4 Other EMPI Service Properties
  • 13.4.4 Data Source Configuration
13.5 Deployment
13.6 Start Services
13.7 Update IM Cell Data in i2b2 Standalone Admin
13.8 Verify IM Installation
13.9 Next Steps
