Load workdata tables

Step 4:   Load sample data into the tables

The **fourth** and **final step** in the workdata installation process is to load the data into the tables by running the following command:

Select the command line that is appropriate for your environment.

Linux Run Command
ant -f data_build.xml db_workdata_load

Windows Run Command
%ANT_HOME%\bin\ant.bat -f data_build.xml db_workdata_load
