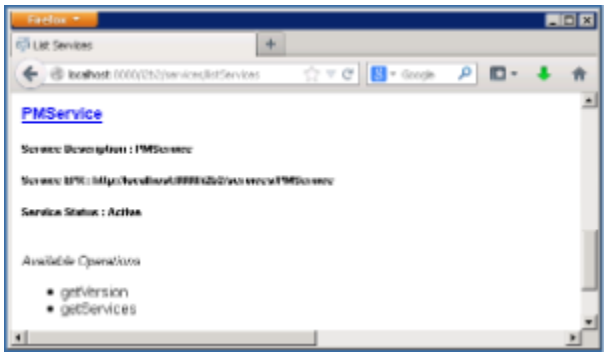
4. Verify Installation

Verify Web Services

Although this step of the installation is optional it is highly recommended that you do a "Sanity Check" to make sure the Web Services are running.

Steps to verify web services

1. Open your web browser and enter the following URL:
http://*yourHost:9090*/i2b2/services/listServices


2. Verify the i2b2 services (e.g., PMService) are listed as active.
