

6.4.2.1 Add Cell Parameters

Steps to Add a Cell Parameter

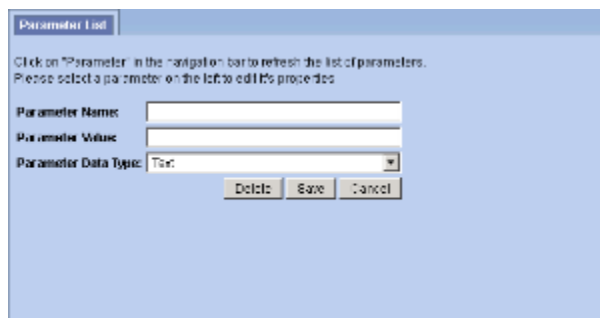

The following steps outline the process of adding a parameter to a cell from within the i2b2 Administration Module.

Assumption: The following steps assume you are already logged into the i2b2 Administration Module. If you do not know how to login please see the chapter titled *i2b2 Administration Module Install*.

1. In the Navigation panel, expand **Manage Cells** to display a list of cells.

2. Expand the **name of the cell** you want to add a parameter to.
3. Click on the **Params** option that displays under the cell's name.
4. The **Parameters List** page will display on the right side of the window pane.
5. Click on **Add New Parameter**. The *Enter Parameter* page will display.

A screenshot of the 'Parameter List' page. It contains a form with three input fields: 'Parameter Name', 'Parameter Value', and 'Parameter Data Type'. The 'Parameter Data Type' field has a dropdown menu with 'Text' selected. Below the form are three buttons: 'Delete', 'Save', and 'Cancel'. At the top, there is a note: 'Click on "Parameter" in the navigation bar to refresh the list of parameters. Please select a parameter on the left to edit its properties.'

6. Enter the name of the parameter, the value for the parameter and the data type for the parameter.
7. Click on **Save** to save the new parameter.
8. The *Parameters List* page will display with the new parameter.
9. In the Navigation panel click on **Params** to refresh the hierarchical tree and display the new parameter.
