6.5 Managing i2b2 Users

Everyone who uses the i2b2 has to be setup as an i2b2 user in the i2b2 Administration Module. The management of these users is done under **Manage Users** and the following functions for managing your users are available.

1. Add, edit, and delete user(s)
2. Add, edit, and delete user parameter(s)

The steps on how to use these features are defined in one of the sections that follow.
