

Storing Patient Collections

A patient collection (or set) may be dragged from the *Previous Query* view. The namespace for the schema that defines the Patient Collection XML content is <http://www.i2b2.org/xsd/cell/crc/psm/1.1/>

The plugin_drag_drop XML message for a patient collection is as follows:

```
<span style="color: #0000ff"><?</span><span style="color: #a31515">xml</span> <span style="color: #ff0000">version</span><span style="color: #0000ff">=</span><span>"<span style="color: #0000ff">1.0</span></span>" <span style="color: #ff0000">encoding</span></span><span style="color: #0000ff">=</span><span>"<span style="color: #0000ff">UTF-8</span></span>" <span style="color: #ff0000">standalone</span></span><span style="color: #0000ff">=</span><span>"<span style="color: #0000ff">yes</span></span>"<span style="color: #0000ff">?></span></span>
