JAR File

A JAR (Java Archive) file of the i2b2 CRC Test Plug-in is available for users to download and add to their existing installation of the i2b2 Workbench. There are two JAR files available, one is for those using the i2b2 Workbench on Microsoft's Windows platform and the other is for Apple's Macintosh. The links to download the appropriate JAR file has been provided in the Quick Download section of the Download JAR File page.

Information regarding the download steps and adding it to the i2b2 Workbench have been provided on additional pages within this space.

Included in the zip files for the i2b2 CRC Test Plug-in's JAR file is a folder containing a set of sample test cases. Information about these test cases can be found on the Test Cases - File page.
