Project Files

CRC Test Project Files

The project software is contained in the Eclipse "*Archive*" file called *i2b2crctesterplugin-src-xxx.zip.

⚠ The file name has been modified slightly in tht thenumbers would normally appear have been replaced with an 'x'. In actuality these 'x's would be the version of software in the zip file. Example: i2b2crctesterplugin-src-1000.zip means the zip file contains version 1.0.00 of the CRC Test plug-in.

This ***archive file*** contains the following Eclipse projects:

Project / Directory Name	Description
edu.harvard.i2b2.common	Common core exception, jaxb, and utilities used by i2b2 hive.
edu.harvard.i2b2.eclipse.plugins.crc.test	Contains source code for the CRC Test plug-in and the Run Query view
edu.harvard.i2b2.xml	XSD for the i2b2 hive
