

## 330. Overview

In this section you will get at first an **overview of the software**, explaining [all menu entries](#) of the IMT. Additionally, we outline the purpose of [all of the windows \(= views\)](#) the graphical user interface is made of. After that, we explain [how to manage i2b2 servers](#), that means, creating connections to i2b2 databases to operate on. We conclude with [managing i2b2 projects](#), which are essentially a representation of a number of SQL tables to persist the clinical data and metadata.
