Crcdata Tables

Overview of CRC Data Installation

The crcdata tables are part of the Data Repository (CRC) Cell. The following outlines the steps that will be taken during this stage of the installation.

Step 1: Change your working directory

Step 2: Set the database properties for the crcdata

Step 3: Create the Data Repository (CRC) tables, indexes and sequences

Step 4: Create the stored procedures

Step 5: Load sample data into the tables

Step 6: Create the OMOP views
