

Load metadata tables

Step 4: Load sample data into the tables

The **fourth** and **final step** in the metadata installation process is to load the data into the tables by running the following command:

Select the command line that is appropriate for your environment.

Linux Run Command

```
ant -f data_build.xml db_metadata_load_data_omop
```

Windows Run Command

```
%ANT_HOME%\bin\ant.bat -f data_build.xml db_metadata_load_data_omop
```

Note

The loading of the metadata may take an extended period of time (over several hours) due to the amount of sample data provided.
