

Installation

The ACT i2b2 plugins (SHRINE to i2b2 Connector and Patient List Exporter) version 1.1 are an enhancement over version 1.0. These plugins can be utilized to help identify potential study subjects at a local ACT site level. The plug-ins come as pre-installed and packaged in an i2b2 web-client. Following are the steps to install the ACT i2b2 web-client.

This web-client is compatible with i2b2 version 1.7.08b and up
