getServices - SetProject Request Message

```
<message_body>
<pm:set_project id="ONT">
<name>My project</name>
<key>123</key>
<wiki>http://www.i2b2.org</wiki>
<path>/project</path>
</pm:set_project>
</message_body>
```

A **setProject** message is sent by a client application or another cell service to add a user to the PM cell.
The domain, username, and password are sent in the header of the message so it does not need to be sent separately in the *<message_body>*.

Role	Access Full	Access Project	Access Self
ADMIN	X	X	X
MANAGER		X	X
USER			X

```
<request>
<request>
<message_header></message_header>
<request_header></request_header>
<message_body></message_body>
</request>
</request>
```
