getServices - GetHive Request Message

```
<message_body>
<pm:get_hive>1234567890123456</pm:get_hive>
</message_body>
```

A **getHive** message is sent by a client application or another cell service to get a hive in the PM cell.
The domain, username, and password are sent in the header of the message so it does not need to be sent separately in the *<message_body>*.
