Mappings of Styles -

The following table is a mapping between the elements in the *Component & Connector Client-Server view* shown in section 3.1.1, and the *Modules Uses view* and *Decomposition view* shown in sections 3.2.1 and 3.2.2.

The relationship shown is ***is-implemented-by***, i.e. the elements from the C&C view shown at the top of the table are implemented by any selected elements from the Modules views, denoted by and "X" in the corresponding cell.

	WORK Server	Project Management Server	Workplace Database
WORK Service	X	X	
Workplace Webservice	X		
Request Handler	X		
Request DAO	X		X
Work Data Object	X
