

# 2.6 i2b2 Requirements

## i2b2 Software Requirements

The "i2b2 Software" is made up of several components that can be downloaded from the i2b2 website. On the i2b2 website these components have been grouped into three main categories:

1. i2b2 Workbench
2. i2b2 VMWare
3. i2b2 Source

Within each of these grouping are the corresponding zip files that can be downloaded. The following tables outline what files need to be downloaded for this installation.

### Category: i2b2 Workbench

The latest version of the i2b2 Workbench is available as an executable and can be downloaded from the i2b2 website. There are two versions available for download; you will need to select the one that is appropriate for you.

Note: i2b2 Workbench for Mac client install **is now part of the i2b2 Workbench VMs**
