

2.6.2 Download i2b2 Software

The steps in this section outline the process of accessing and downloading the required i2b2 software files from the i2b2 web site. They are written for downloading the i2b2 Workbench but they apply to any of the files that you will be downloading.

Assumptions:

Depending on your browser and your version of windows or mac you may need to select a target directory to save your files. For this document, the assumption is made that the files will be downloaded to your *Download Folder*.

i2b2 Software Download Steps

1. Go to the i2b2 website (<http://www.i2b2.org>)
2. At the top of the page there is a navigation bar, click on **Software** to go to the *Software page*.

3. The software page will load. You can download the current version distribution files under their respective sections
4. Current release Binary Distribution files can be downloaded under Download Binary Distribution section

The i2b2 is a collection of both client and server and can be used to install or upgrade the i2b2 Server and webclient. More detailed instructions are located [here](#).

Version: 1.7.12a
Release Date: May 4, 2020
License: Mozilla 2 Open Source License

Select the appropriate file below for download:

Download	File Size	Description	Installation Guide
i2b2core-new-1712a.zip	712 MB	 New Install i2b2 Server	 Quick Install
i2b2core-upgrade-1712a.zip	82 MB	 Upgrade i2b2 Server	 Quick Upgrade

5. Vmware image can be downloaded under VMWare Image section

VMWare Image

Below is the complete VMware i2b2 server installed on CentOS.

Only supported on VMware fusion and Player.

Version: 1.7.12a

Release Date: May 4, 2020

License: [Mozilla 2 Open Source License](#)

After you have downloaded and installed the VMware image, please use the following login for CentOS:

 **CentOS Account**
User: **wildfly (or root)**
Password: **demouser**

Select the appropriate file below for download:

Download	File Size	Type
i2b2vmware-1712a.zip	2.6 GB	 VMware Core Image v1.7.12a
vmware_install_guide_17.pdf	866 kB	 VMware Installation Guide v1.7.12a

5. Source code files can be downloaded by using the links under Download Sourced Code section

Download Source Code

The i2b2 Source is a collection of both client and server source code and can be used to build the i2b2 Server and Workbench from scratch. The source code files for the i2b2 Core Hive Cells, i2b2 Workbench and Web Client are listed below. Demo data and the current documentation can also be downloaded.

Version: 1.7.12a

Release Date: May 4, 2020

License: [Mozilla 2 Open Source License](#)

Select the appropriate file below for download:

Download	File Size	Type
i2b2core-src-1712a.zip	56 MB	 Core Source Code Server v1.7.12a
i2b2webclient-1712a.zip	33 MB	 Web Client Source v1.7.12a
i2b2createdb-1712a.zip	432 MB	 i2b2 Data for Oracle, PostgreSQL and Sql Server
i2b2-workbench-2.0.01.0001.zip	75 MB	 Workbench Client Source v2.0.01.0001

Note

The name of the files shown in the above images may vary slightly depending on the version of the i2b2 software you are downloading, the last part of the file name is dependent on the version of the software in the zip files.

Example: "1712a" means the zip file contains version 1.7.12a

Important

See [i2b2 Requirements](#) section for detailed download information
